SPORTSWEAR

SUMMER 2026

Four strategically designed lines – one unmistakable look

Fashion trends go hand-in-hand with high performance in the summer 2026 collection. Sporty cuts are combined with soft summer tones, and classic tennis silhouettes in white and navy contrast with modern blurred prints and casual cotton styles.

The summer 26 collection performs the perfect balancing act between fashion and sport. The key to a harmonious overall look is a compact and intelligently coordinated color chart. This helps to create a unique complete look within the individual lines, while also allowing playful combinations between the lines to create individual outfits.

Effective material technologies support players during their matches, and create a unique degree of wearing comfort.

Like MXM, for example, where the microfibers dry quickly and create a cooling effect. With an overall package of innovative materials, modern designs and an efficient collection structure, we continue to build on the success we have seen in recent seasons, thereby positioning ourselves as a reliable partner for professional athletes, recreational players and sports enthusiasts.

Roman Stepek
and the HEAD Sportswear team

The **PERFORMANCE** line scores top marks in terms of innovation, functionality and style. High-quality materials and a minimalist design ensure maximum performance and a modern look.

The collection consists of two lines: **PRO PLAYER** and **PLAY**.

PRO PLAYER

Worn by our top athletes, the **PRO PLAYER** line delivers a convincing performance with well thought-out details and slightly larger logos to make **HEAD** optimally visible at tournaments – be it in photos or on TV. Breathable, all-over jacquard fabric ensures maximum comfort, while dynamic multicolor stripes and graphic color inserts create a distinctive look.

PLAY

The **PLAY** line combines function with a modern, sporty look. A subtle melange look lends a softer nuance to the bold colors, creating a stylish, timeless aesthetic – ideal for anyone who likes things a little more understated, but who still wants to set the tone with their outfit.

The **VISION LINE** is just the thing for anyone who wants to score top points on the court with a fresh, modern look. Bright shades of blue, violet and apricot pick up on the latest trend colors and bring a fashionable feeling to sports. Last season's popular blur print has been reinterpreted, and now embraces large-scale accents on shirts and tops.

Eye-catching logo prints with racquet sports details guaranteed – a clear statement of love for the game. Playful tennis skirts, loose tennis dresses with polo collars and sophisticated color blocking designs underline the trend-conscious character of this collection. Strategically placed mesh inserts ensure optimum ventilation and keep you pleasantly cool, even during the toughest matches.

When off court, this line impresses with casual tracksuits made of lightweight ripstop material and cotton styles with the iconic Rainbow **HEAD** logo.

With a color palette comprising rich berry tones, soft apricot nuances, cool blue and natural shades, the OFF-COURT line perfectly complements the VISION and PERFORMANCE collections.

It brings the unmistakable HEAD look from the court straight into the city – and, at the same time, sets stylish accents to combine the other lines with urban cotton pieces.

One highlight is a polo shirt in classic retro design with striking color inserts and an eye-catching HEAD logo – a style that fits perfectly into the retro jersey trend.

Unisex cotton crewneck sweaters combined with loose cotton shorts complete the trendy “athleisure look” and bridge the gap between court and city.

The CLUB program – developed for a three-year market presence – is now entering its second year.

This collection stands for consistency and reliability – perfect for teams that rely on uniform outfits. Thanks to identical designs for men and women, harmonious team looks can be created.

Furthermore, selected styles in white and navy are permanently available thanks to our NOS (“Never Out of Stock”) program, so that they can be ordered for the entire life cycle of the CLUB line.

TECHNOLOGIES

MOISTURE TRANSFER MICROFIBRE

These high-performing microfibres move sweat to the surface of the material where it is efficiently removed. This brings a cooling effect and allows the material to dry quickly. MXM is at its most effective when worn directly on the skin.

TAPED SEAMS

Seams are a weak point on clothing where moisture and wind can penetrate. That is why the seams on the inside of our products are sealed with tape. This tape is machine-welded onto the seam and closes it completely. We make a distinction between “fully seam taping”, where all seams are closed, and “critical seam taping”, where only seams that are in critical places, such as the shoulder area, are closed.

100 % PFC FREE

Textiles in the outdoor sector are treated with a chemical finish (durable water repellency - DWR) to make them water- and oil-repellent. Fluorocarbon compounds, which are also called per- or polyfluorinated chemicals (PFCs), are usually used for this purpose. These chemicals are controversial because of their harmfulness to both human health and the environment. At HEAD Sportswear, we are striving to convert all fabrics treated with DWR to become PFC-free in the long term. This enables us to protect people and the environment.

STRETCHABLE FABRIC

We use various fabrics that exhibit stretch characteristics. This includes knitwear, which is elastic due to the knit, and woven fabrics, which become stretchy thanks to their woven construction or the addition of spandex. We distinguish between fabrics that are stretchable in two directions (2-way stretch fabric) or in four directions (4-way stretch fabric).

FOOTWEAR

FOOTWEAR TECHNOLOGIES

COMFORT

HEAD TRI-NRG
HEAD's complete midsole technology. First, NRG **N**utralizes impact in the heel, then it is **R**igid in the midfoot for excellent torsional support and finally, **G**enerates energy in the forefoot for faster acceleration.

SOCK SUPPORT SYSTEM
Fully integrated elastic sock construction for initial comfort and better support.

ORTHOLITE®
With its innovative long-term cushioning, and lightweight, highly breathable foam, the OrthoLite® insole enhances comfort on and off the court. The moisture management helps to keep the foot cool, dry and comfortable. On top of that, the insole is machine-washable.

STABILITY

BOA® PERFORMFIT™ WRAP
Delivers micro-adjustable, precision fit engineered to perform in any conditions.

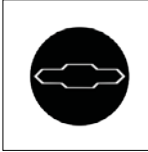

HEAD HEEL STABILIZER 180°
TPU Brace that wraps around the heel for best fit and support.

HEAD LATERAL CONTROL
HEAD includes additional lateral stability on all our top performance shoes to help avoid rolling over during extreme slides.

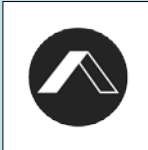

CORE FRAME
3D TPU frame running throughout the core of the shoe, providing the player with stability from heel to toe. Its unique shape in the heel area allows shearing forces to occur based on where the player lands, enhancing control and performance.

DYNAFOAM
Created with small air cells, this highly responsive, lightweight midsole offers exceptional comfort and lasts longer than conventional EVA midsoles.

HEAD COOLING SYSTEM
Perforations in the outsole, midsole and sock-liner ensure great ventilation in the bottom of the shoe. Also includes a breathable upper mesh material that provides optimal cooling.

DELTASTRAP
Triangle shaped midfoot straps are integrated into the lacing for best stability and an individual fit.

HEAD LOCKDOWN STRAP
Midfoot straps integrated into the lacing system keep your foot in place.

HEAD LATERAL CONTROL+
Reinforced sidewall for outstanding lateral stability which also helps to prevent rolling over during more extreme moves.

CORE CONTROL
3D TPU sidewall strategically positioned in the lateral forefoot, providing the player with optimal stability during lateral movements.

DURABILITY

SUPERFABRIC®
Extremely abrasion resistant and at the same time really flexible upper material.

HEAD HYBRASION
Non-Marking rubber compound that provides good grip and offers great durability on all surfaces.

HEAD DRIFT DEFENSE
HEAD uses an abrasion resistant rubber or a TPU layer in the Drift Defense technology to protect the toe and medial forefoot area during aggressive toe drags.

HEAD HYBRASION+
A special rubber compound developed for tennis shoes. Guarantees the best traction for all court surfaces while still providing excellent durability for players who slide a lot.

ENDURE PRO BOA

The ENDURE PRO BOA offers the perfect balance of speed, durability and stability. Part of the new ENDURE series that bridges the gap between REVOLT and SPRINT, combining the best of both worlds. With its sleek design and the BOA® PerformFit™ Wrap and Dual Li2 dials which deliver micro-adjustable precision fit, while enhancing the stability, you can switch effortlessly from baseline play to an all-court game.

MOTION PRO 1.5 BOA PADEL

Developed with HEAD's pro players, and updated with a softer, more flexible upper, the MOTION PRO 1.5 BOA PADEL has the BOA® Dual Li2 Fit System which delivers micro-adjustable precision fit. Part of the MOTION series that is HEAD's first footwear silo engineered specifically for padel, this high-performance shoe has a new breathable dual mesh upper that is lighter and softer while the new sock construction enhances stability and comfort. The padel specific outsole tread, which was developed with Mondo, allows for fast, smooth, 360-degree movement.
